

Project Visioning

A local business owner, resident, and active member of the Noontime Kiwanis Club approached the City with an idea to improve the main overlook in Soldiers Memorial Park. A preliminary concept and design report were completed in 2016. The images on this board illustrate that vision.

Funding

The redesign and construction of the Memorial Park Overlook will be accomplished through a combination of public and private funds:

- The City has invested up to **\$40,000** to develop site plans for the redesign of the overlook
- Council approved a Capital Budget that sets aside **\$147,000** in 2019 for construction
- Matching private sector funds of **\$147,000** have been raised by the Red Wing Noontime Kiwanis Club.

Total available funding:

\$40,000 design fees
\$294,000 construction

\$334,000 in total project funds

The project team is working to design the overlook in a way which balances the initial vision for the site with available funding.
