Highway 61 (Main Street) Project – Old West Main Street Closure

(June 18, 2015, Red Wing, Minn.) – The City of Red Wing and the Minnesota Department of Transportation (MnDOT) would like to inform you that the closure of Old West Main Street at the intersection of TH 61 (Main Street) is planned to take place starting on Tuesday, June 23rd. The closure is required for the completion of the underground utility and permanent roadway improvements within Old West Main Street, from the north side of TH 61 to approximately 200 feet to the north. The closure of Old West Main Street is expected to carry over into the switch from construction on south bound to north bound TH 61. Based on this the estimated intersection closure of Old West Main Street at TH 61, depending on weather and actual construction progress, is through the end of July.

Detour signing for Old West Main Street will be installed along TH 61, with planned detour routes along Bench Street and Levee Road. In addition access will be maintained to the local businesses within the construction area.

Interested in receiving periodic e-mail updates for the TH 61/Main Street Reconstruction project? Send an e-mail request to hw61.reconstruction@ci.red-wing.mn.us, and we'll add your name to the project update list.

Motorists are encouraged to stay alert and drive carefully through all work zones and use detour and alternate routes whenever possible. Questions may be directed to Jay Owens, City of Red Wing Engineer, at 651-385-3625. Visit the project website for additional information <http://www.red-wing.org/th61home.html>
