

**What's the project?**

The Memorial Park Overlook project will replace the existing overlook structure at Soldiers Memorial Park atop Sorin's Bluff. The reconstruction of this community amenity supports the City's strategic plan initiative to rebuild city infrastructure, specifically strategy III, *Community Vitality: Excel as a place where people of all ages want to live and work.*

The goals of this project are to:

- Provide superior view opportunities from both parked vehicles and from overlook plaza (while standing or sitting)
- Design an overlook in line with the existing character of Memorial Park
- Update the overlook to meet current safety and accessibility standards
- Create separate spaces for vehicles and pedestrians
- Create a simple overlook design
- Construct a high-quality park facility using durable, low-maintenance materials

**Where is the Memorial Park Overlook?**

**Project Timeline**

**Existing Overlook**

**Park Character**

To remain consistent with the rest of Memorial Park, materials will be selected which mimic or coordinate with existing park features.

- ...From left to right:
1. Limestone benches
  2. Limestone veneer on multiple park structures
  3. Identify opportunities for memorial features
