

What do you think?
Let us know which of these aesthetic treatments you can support on your comment card!

Railing Style

A railing will be selected which meets current safety standards, is low-maintenance, and supports the goal to provide superior views. Several styles are available which meet these requirements.

Squares

Circles

Open Rail

Medalion detail not included

Covered Staggered Pickets

Picket embellishment not included

Pavement Style

Decorative pavement is one way to add character to a site. Colored concrete, stamped concrete, decorative scoring patterns, stone pavers, or a combination of these are all possible at the overlook.
