**ZONING, SUBDIVISION, AND GENERAL LAND USE PERMITS**

1. State surcharges will also be applied to the appropriate fees.
2. No fee for developments with less than 0.01 acre of new impervious surface (aggregate base is considered impervious surface).
3. For certain land use permits, the City of Red Wing charges a nonrefundable base fee and an escrow account fee as shown below. The base fee is nonrefundable. Actual staff review expenses and direct costs are charged against the escrow account. Any escrow account balance is refunded to the applicant once the zoning approval is given and all conditions of approval have been substantially met. For project reviews that require additional staff time and direct costs beyond the limits of the initial base fee and escrow account, the City reserves the right to require an additional escrow account. The escrow account fees are placed in a noninterest-bearing account. Staff expense reimbursement is charged for private development and not for public projects. Base fees and initial escrow account fees are set as noted below.
4. Public projects that are sponsored by public agencies are not required to pay the escrow account fee and will not be charged for staff review expenses. Public agencies include the State, County, School District and any City agency such as the Red Wing Port Authority and Red Wing Housing and the Redevelopment Authority.
5. Multiple applications - there are instances where more than one permit is applied for at the same time for the same development. In these instances, the applicant shall pay one base fee and escrow account. The base and escrow account fee paid in these instances shall be the fees associated with the highest cost permit.

**NON-SEWER OR IRRIGATION ACCOUNTS**

Non-sewer or irrigation accounts that would like to obtain an irrigation meter for the purpose of watering lawns and shrubs shall follow this procedure:

1. The property owner shall contact the Utilities Department to discuss the procedure and receive approval for an irrigation meter. The property owner shall provide proof that no water from the irrigation meter account will enter the city's sewer system.
2. Applicants for non-sewer or irrigation accounts shall be done by the property owner or association responsible official.
3. A residential account is defined as any single building with four or fewer residential units. A commercial account is defined as any building with five or more units, or where the principal use of land or building is for sale, lease, rental or trade of products, goods or services.
4. Account activation or set-up fees shall be charged each year. This fee is set annually.
5. An annual meter installation and removal charge will be established and annually set. These charges will apply to any meter that cannot be installed in an area protected from freezing and must be removed seasonally. The meters will be annually removed and reinstalled by the city at an annual fee as established in the Fee Schedule. Any winterization charges shall be billed at annual department rates plus 15% processing charges. Meters that cannot be installed indoors shall be installed in either buried concrete manholes with a minimum diameter of 4 feet and at a minimum depth of 5 feet from finished grade or above-grade structures. Structures and the installation shall be approved by the City. All pits shall have proper drains or sump pumps, and protection to prevent flooding and submersion of back flow valves under water from leaks or infiltration. Structures shall conform to city standards. Above-grade meter and irrigation equipment housing structures shall provide adequate space for servicing. Locked facilities shall be fitted to accept standard city padlocks along with owner's locks to provide to the Public Works Department for access.

Exhibit A

6. Existing non-conforming summer services are "grandfathered in" until such time as they are reconstructed or substantially rehabilitated and, at that time, shall be required to conform to standards.
7. All irrigation systems shall comply with applicable plumbing codes and regulations.
8. Each commercial account will have an individual water service originating at the city watermain in the street with a curb stop shutoff at the property line along the street.
9. If all the above stipulations are completed, the property owner will be billed for water usage and availability for this account. Sewage usage charges will not apply to approved irrigation services.

**WATER RATES**

Fees - Annually - Unless Specified Differently

**A. Water Rates**

The consumers of city water shall pay to the City of Red Wing for water used or metered: \$3.67 per 100 cu. ft.

**B. Availability Charges**

In addition to the above water rates, a monthly service charge will be made to every metered service where public water is available, whether water is used or not, based on the size of the water meter.
